1 INTRODUCTION

This chapter will be presented in the following sections:

- Background
- Purpose of the report
- Structure of the report.

1.1 BACKGROUND

In 2016, the former Department of Agriculture, Forestry and Fisheries verified approximately eight thousand four hundred and eighty-eight individuals in fishing communities that expressed interest in small-scale fishery. Thereafter, the Department declared two thousand eight hundred and two individual's small-scale fishers. However, after the announcement of declared small-scale fishers, the Department received several complaints implying that the process followed in the Western Cape was unjust and not transparent. The Minister of Forestry, Fisheries and the Environment, Ms Barbara Creecy ("the Minister"), engaged with various fishing communities and other fisheries stakeholders in the Western Cape to note the challenges faced by fishers and to respond to the concerns raised by the fishers. The fishers showed unhappiness about the entire process in the Western Cape. Subsequently to that, the Department decided to launch an audit on the entire process of verifying and registering fishers in the Western Cape. The findings proved that the process in the Western Cape was ambiguous, unfair, and not transparent and thereby recommended that the Minister should start the process afresh.

The audit report further concluded that the verification criteria used were not in line with the Small-Scale Fisheries Policy, the verification form was ambiguous, the community panel members excluded fishers unfairly and deliberately, officials assessing verification information were not consistent, the service provider did not capture information correctly, and the process followed for the Western Cape (WC) was wholly inadequate and unfair. Furthermore, the audit report concluded that the criteria on the verification form were not clear for fishers to understand. The verification form allowed for inconsistent information and confusion to fishers who were completing the form without assistance. The Criteria (SSF Regulation 4 (1)) were not defined, hence a possibility of ambiguity. In redoing the process, the Department is determined to ensure consistency; hence, the appointment of an observer committee, which will include the recognised Community-Based Organisations (CBOs).

This project involves the observation of the mobilisation, distribution, receipting and verification processes of Small-Scale Fishers in the Western Cape. The purpose of the observer forum is to observe that all processes are adhered to in the manner outlined in the implementation plan. The implementation plan with an additional checklist can be found below.

Delta Built Environment Consultants (Delta BEC) was appointed to ensure the management of the observer committee as well as the documentation, processing and reporting on any documentation that emanates from the observer committee's duties.

1.2 PURPOSE OF REPORT

This report aims to give the reader feedback as to how well the Department of Forestry, Fisheries and the Environment did with following the due procedure set out to issue individuals with small-scale fishing permits fairly. The high-level process that was followed is as follows:

- Step 1: Mobilisation
- Step 2: Distribution
- Step 3: Catch-All Distribution
- Step 4: Mobilisation for Receipting
- Step 5: Receipting
- Step 6: Verification (3 Phases).

Steps 3 and 4 were not part of the original process; these processes were added after step 2 by DFFE as a necessity. The catch-all distribution phase was implemented as DFFE noticed that the number of fishers who collected forms was a lot lower than initially anticipated. The mobilisation for receipting phase was brought in by DFFE for two reasons; firstly, the DFFE wanted to give the fishers who collected during the catch-all phase additional time to get their documentation in order, and secondly, because the fisher representative organisations requested additional time for the fishers to collate their documentation.

Delta BEC is not employed to observe the appeals and final list announcement process. The appeals process will be handled by an external department. Once the appeals process has run its course, the final list will be announced.

The report will include the purpose of each stage, methodology, types of data collected and summaries of the results from the days observed, and detailed checklists and photo evidence will be included as appendices.

1.3 STRUCTURE OF REPORT

The report comprises the following sections:

- Section 2: Approach
- Section 3: Mobilisation
- Section 4: Distribution
- Section 5: Catch-All Distribution
- Section 6: Mobilisation for Receipting
- Section 7: Receipting
- Section 8: Verification

- Section 9: Conclusion

2 APPROACH

The difficulty that the observer forum faces is that the members reside all over the Western Cape and do not have access to office space. Furthermore, the availability of the observers posed a risk as many of the observers are also fishers and, therefore, cannot commit to full-time observing. The solution implemented is one that uses WhatsApp to administer the checklist questions to the observer on the day of the observation. Delta BEC asked the observers a variety of questions throughout the day, to which the relevant observers responded and provided relevant proof for the questions asked. All these conversations and proof received are presented in this report.

3 MOBILISATION

The mobilisation phase of the process refers to the phase where the local fisherman interested in obtaining fishing rights is notified with that the distribution phase (further detailed in section 4) will commence. This communication is done via posters, bulk SMSs and radio broadcasts.

This chapter is detailed in the following sections:

- Overview
- Criteria to be met for distribution to be successful
- Data collected.

3.1 OVERVIEW

The table below presents the findings for the planned start date and the actual start date and elaborates on the observer responsible for this location with his/her comments.

Table 3-1: Mobilisation - Planned start vs Actual start

ITEM	DESCRIPTION
Venue	Lotus River Primary School is advertised on the poster in Error! Reference source not found. , however for the distribution phase this venue was changed to Harmony Hall
Planned Start Date	12 September 2022
Actual Start date	No photo evidence received to confirm actual date
Data collector	DFFE – No specific person from DFFE observed on the day. The information was received in bulk through Sindisa Sigam.
Effect on applicants	The project is on track to be completed as committed by the department
Additional Comments	No observer forum had been formed by the time DFFE commence with mobilisation, therefore, all mobilisation information was received from DFFE officials through pictures which they downloaded from their WhatsApp group chat

3.2 CRITERIA TO BE MET TO BE SUCCESSFUL

This section presents the posters put up, SMSs sent, and radio broadcasts made by DFFE to communicate the initial timelines to the fishers.

3.2.1 POSTER

The posters were put up at various locations in the vicinity of the main centre where fishers could clearly see them. The posters below (Table 3-2) were also made available online through the DFFE website.

The process will only be open to the community members who participated in the initial process in 2016. Community members will need to present their original/valid temporary identity document on the day of registration and should gather all necessary documentation in preparation for the registration and verification processes.</p> <p>If community members are unable to attend these meetings, as per the schedule, valid reasons include as an example a medical emergency or the death of an immediate family member. 'Fishing' or 'attending to other business' will not be regarded as valid reasons for not attending the meetings. Community members must notify the DFFE prior to the meeting, on the number provided below, to arrange the authorisation of a proxy letter. A template of the proxy letter can be retrieved from the nearest Fisheries Compliance Offices of the DFFE.</p> <p>Notes on the verification process</p> <ul style="list-style-type: none"> • Verification forms are not for sale. • Each verification form will have a unique sequence number and the form should not be photocopied. • Eligible community members will be required to visit the distribution centres to collect their verification forms. • Community members will be given 31 days to complete the forms and collect all the required documentation. • The DFFE will collect/receive all verification forms after 31 days at the same venues. • Community members will be given a receipt with a unique number, which will also be visible on the original verification form. The receipt will be used as proof that they have submitted the verification form.

3.2.2 BULK SMS'S

The SMSs were meant to be broadcast to let fishers know about the distribution and receipting process that will take place in the community. The below table indicates the criteria which the DFFE needs to meet to prove that the SMSs were sent and that the correct information was shared.

Table 3-3: Mobilisation - Bulk SMS's criteria to be met

	CRITERIA TO BE MET	YES/NO
1	Have SMSs been sent with the following information:	
1.1	<ul style="list-style-type: none"> • Visitation schedule 	No
1.2	<ul style="list-style-type: none"> • Location of the venues 	No
1.3	<ul style="list-style-type: none"> • Dates and times for distribution and receipting 	No
1.4	<ul style="list-style-type: none"> • Documents required for registration 	No
1.5	<ul style="list-style-type: none"> • That forms are free 	No
2	Was proof provided that the SMS's were sent to the applicants of the area?	No

3.2.3 RADIO BROADCAST

The radio message was to be broadcast to let fishers know about the distribution and receipting process that will take place in the community. The below table indicates the criteria which the DFFE needs to meet to prove that the radio broadcast was made and that the correct information was shared.

Table 3-4: Mobilisation - Radio broadcast criteria to be met

	CRITERIA TO BE MET	YES/NO
1	Radio broadcast communicated the following:	
1.1	<ul style="list-style-type: none"> • Visitation schedule 	No
1.2	<ul style="list-style-type: none"> • Location of the venues 	No
1.3	<ul style="list-style-type: none"> • Dates and times for distribution and receipting 	No
1.4	<ul style="list-style-type: none"> • Documents required for registration 	No
1.5	<ul style="list-style-type: none"> • That forms are free 	No
2	Was a copy of the broadcast message provided?	No
3	Was a letter from the radio station provided stating the dates the message aired?	No
4	Is there correspondence from DFFE to the radio stations?	No

3.3 DATA COLLECTED:

This section presents the evidence collected in the form of photos and letters from various service providers.

Table 3-5: Mobilisation - Data collected

DATA COLLECTED	YES/NO
Observer forum feedback forms	No
Letters from various service providers	No

3.3.1 OBSERVER FORUM FEEDBACK FORMS

The observer forum had not yet been established when DFFE commenced with the mobilisation phase. The DFFE noted that they are comfortable to commence with mobilisation without the observer forum present and opted to provide the proof themselves. Due to this no observer forum feedback forms were generated.

3.3.2 LETTERS FROM VARIOUS SERVICE PROVIDERS

Delta BEC requested DFFE to submit letters from the service providers of the radio station and the SMS broadcasting, these letters will serve as proof for services rendered in a certain area, on a certain date and conveying the relevant information. This would assist DFFE to provide evidence that protocol was followed as the observer forum was not established by the time these services were to be rendered.

DFFE has not retrospectively provided Delta BEC with letters or correspondence from various service providers as proof of sending out SMSs and broadcasting on the radio.

4 DISTRIBUTION

The distribution phase of the process refers to the distribution of application forms to the interested fishers who wish to obtain small-scale fishing licenses. The distribution of the licenses is limited to the applicants who applied for fishing licenses during the 2016 process. This chapter of the reports details the findings from observing the process under the following sections:

- Overview
- Criteria to be met for distribution to be successful
- WhatsApp Messages

4.1 OVERVIEW

The table below presents the findings for the planned start date and the actual start date of the distribution process and elaborates on the observer responsible for this location with his/her comments.

5 CATCH-ALL DISTRIBUTION

During the distribution phase DFFE noted that the number of forms collected were low compared to the number of applicants from 2016. The DFFE noted that this was due to varying reasons but wanted to give fishers another chance to collect. As a result, DFFE ran a second distribution phase, this distribution phase did not go to each venue, but went to central venues in the larger regions where fishers from surrounding areas could collect their forms. The dates of this process were advertised via SMS's. This chapter of the reports detail the findings from observing the process under the following sections:

- Overview
- Criteria to be met for distribution to be successful
- Data collected

6 MOBILISATION FOR RECEIPTING

During the distribution phase, the DFFE noted that they got multiple requests from fisher Non-profit Organisation's (NPO) to extend the time between the distribution and receipting dates. The NPOs noted that the fishers required more time to get their supporting documentation together. The DFFE agreed to push the receipting dates out and, in turn, proceeded to arrange a mobilisation for receipting process. The mobilisation for the receipting process included going to the venues and putting up posters that advertised the new dates for the receipting process.

Delta BEC was put on WhatsApp groups with DFFE members who would send photos of the posters at the venues as evidence that it has been put up.

6.1 OVERVIEW

The table below presents the findings for the venue, the originally planned start date and the updated planned start date of the mobilisation for the receipting process.

RECEIPTING PROCESS: VERIFICATION, REGISTRATION, DECLARATION, AND RIGHTS ALLOCATION | FOLLOWS (1) CATCH-ALL WEEK: 17 - 21 OCTOBER 2022 and (2) SEPTEMBER 2022 ROLLOUT OF WESTERN CAPE SMALL-SCALE FISHING RIGHTS: RE-RUN OF THE 2016 PROCESS.

Figure 6-1: Mobilisation for Receipting – New poster

PUBLIC NOTICE

THE DEPARTMENT OF FORESTRY, FISHERIES AND THE ENVIRONMENT TO RECEIVE VERIFICATION FORMS FOR THE DECLARATION OF SMALL-SCALE FISHERS IN THE WESTERN CAPE

The Department of Forestry, Fisheries and the Environment (DFFE) is pleased to announce that the receipting process for small-scale fishers in the Western Cape is now open. The receipting process is a critical step in the declaration of small-scale fishing rights. The Department is currently accepting verification forms from small-scale fishers across the Western Cape. The receipting process is a critical step in the declaration of small-scale fishing rights. The Department is currently accepting verification forms from small-scale fishers across the Western Cape.

During the catch-all week, the Department received concerns from community leaders who stated that communities were not ready for the receipting process. Considering the concerns raised, the Department called for an urgent stakeholder meeting with Community Based Organisations (CBOs) to better understand the concerns. In the meeting, CBOs agreed that community members needed more time and the end of November 2022 to complete their verification forms.

After internal consultation, the Department approved the request from CBOs to start the receipting process on 05 December 2022 and end on 15 December 2022, to give communities sufficient time to complete their verification forms (see verification schedule below).

The Department has also agreed to accept and avoid people that come to the Forestry Building of the Department in Cape Town to collect their verification forms after the catch-all week. The Department continued with this arrangement at the Forestry Building on 11 November 2022.

Please Note: The Department will not allocate any additional time for people to collect verification forms as this will have an impact on the receipting process.

Rules of Receipting Process:

- Each verification form has a unique response number, and the form should not be photocopied.
- Community members should only complete and submit the original verification forms, and no "Sample Form" will be accepted during the receipting process.
- Community members will be required to submit their verification forms to the Department in person, they will be required to complete a petty form and attach it to their verification forms and that of the verification form.
- The Department encourages all community members that are being difficult in completing the verification forms to contact the Department for assistance, or they can come to the receipting process on the specified dates, and they will be assisted to complete their forms.

The receipting schedule is as follows:

7 RECEIPTING

7.1 OVERVIEW

The table below presents the findings for the planned start date and the actual start date and elaborates on the observer responsible for this location with his/her comments.

Table 7-1: Receipting - Planned start vs Actual start

ITEM	DESCRIPTION
Venue	Harmony Hall, Grassy Park
Original Planned Start Date	02/11/2022
Updated Planned Start Date	09/12/2022
Actual Start Date	09/12/2022
Data collector	Grace Adams – Observer Forum
Effect on applicants	The project is on track to be completed as committed by the department according to the updated dates.
Additional Comments	Due the fisher organisations requests to move the receipting dates later, DFFE implemented a mobilisation for receipting process whereby they went to the area and put-up new posters indicating the new dates. The above “Updated Start Date” refers to the new start date according to the updated dates.

7.2 CRITERIA TO BE MET FOR RECEIPTING TO BE SUCCESSFUL

This section presents the questions asked to the observers via WhatsApp and captures their responses in a table format.

2022/12/09, 08:38 - Dezire - Deltz BEC: Morning Grace

Are you at the venue? Yes or No

2022/12/09, 08:39 - Grace Adams: Good day on my way

2022/12/09, 08:43 - Dezire - Deltz BEC: Hi Observer Team, thank you for serving your community by agreeing to observe today. This group will be used for communication regarding the venue Harmony Hall, and the receipting process taking place here today. We will be asking a series of "Yes"/"No" questions, please answer them when prompted. In between the questions we will be asking for photos and be giving opportunity to raise concerns, please answer these questions when prompted. They are important for the adequate observation of the DFFE processes.

Please remember that you as the observer are only there to observe and not to make decisions on who gets accepted or not. Please report any concerns via the WhatsApp group so that DFFE can be notified and try rectify or address the concern as soon as possible.

8 VERIFICATION

8.1 OVERVIEW

The verification process is where the DFFE team goes through each application to assess whether they are successful or not. The successful applicants then get placed on a list, whereas the unsuccessful applicants will receive reason of decision (RoD) letters and get the opportunity to appeal.

The protocol that the DFFE team issued to be followed was initially changed in January 2023. The updated protocol indicates that there will no longer be a moderation team and that there will only be assessment and quality control teams.

The DFFE noted that they have set out two weeks to complete the verification process and issue the successful applicants list. It should be noted that the DFFE team was not able to complete the verification process in the timeframe they had initially set out to.

Initially, the DFFE was going to have 3 teams to assess applications. On the day the process commenced, the DFFE indicated that they would have 6 teams.

8.2 OBSERVER FORUM INVOLVEMENT

DFFE specifically noted that they would prefer to have Delta BEC employees as observers due to the sensitive nature of the information that is being reviewed. Due to budgetary constraints, the Delta BEC is unable to observe after 10 February 2023.

It has been noted that the DFFE team will continue to record all the sessions through Stowie-M who is providing a recording service.

8.3 ASSESSMENT TEAM

The table below presents the findings for the region, start date, and end date and elaborates on the observer responsible for this location with his/her comments.

8.3.2.3 Checklist signed by all parties involved

Scanned copies were handed over to DFFE as part of the information pack.

8.4 QUALITY CONTROL TEAM

The quality control process was initially meant to happen every Friday afternoon once the assessment team have finished for the day. This did not happen; on the first two Fridays, the teams had not completed enough applications to warrant the quality control team meeting. The team only met on the third Friday (10/02/2023).

8.4.1 QUALITY CONTROL TEAM

The table below presents the findings for the region, start date and end date and elaborates on the observer responsible for this location with his/her comments.

Table 8-4: Verification– Overview

ITEM	DESCRIPTION
Region	CBD
Actual Start Date	25 January 2023
End Date	Delta BEC's appointment ends on 10 February 2023. The DFFE will continue with the verification process along with Stowie-M.
Observer	Fritz Swanepoel - Delta BEC

8.4.2 CRITERIA TO BE MET FOR THE QUALITY CONTROL TO BE SUCCESSFUL

This section presents the questions asked to the observers via WhatsApp and captures their responses in a table format.

Table 8-5: Verification – Quality control criteria to be met

DATE	TEAM	OBSERVER	*ATTENDANCE	IS THE QUALITY CONTROL TEAM CHECKING A SMALL SAMPLE OF THE APPLICATIONS PROVIDED BY THE ASSESSMENT TEAM?	HOW MANY APPLICATIONS HAS THE QUALITY CONTROL TEAM BEEN GIVEN TO MAKE FINAL DECISIONS ON?	HOW MANY OF THE APPLICATIONS HAS THE QUALITY CONTROL TEAM MADE FINAL DECISIONS ON?	IS THE QUALITY CONTROL TEAM PROVIDING FINAL DECISIONS ON THE APPLICATIONS THAT THEY HAVE BEEN GIVEN?	WHERE THE QUALITY CONTROL TEAMS DECISION DIFFERS FROM THAT OF THE ASSESSMENT TEAM, HAS THE QUALITY CONTROL TEAM PROVIDED A DETAILED EXPLANATION?	IS THE QUALITY CONTROL TEAM COMPILING A FINAL LIST OF "SUCCESSFUL" APPLICANTS?	IS THE REASONING FOR WHY APPLICANTS ARE UNSUCCESSFUL BEING COMPILED AND STORED?
