

DEVELOPMENT THROUGH PARTNERSHIP

Session 18: Scaling-up Green Buildings; Green Building Standards

Rodney Milford

cidb

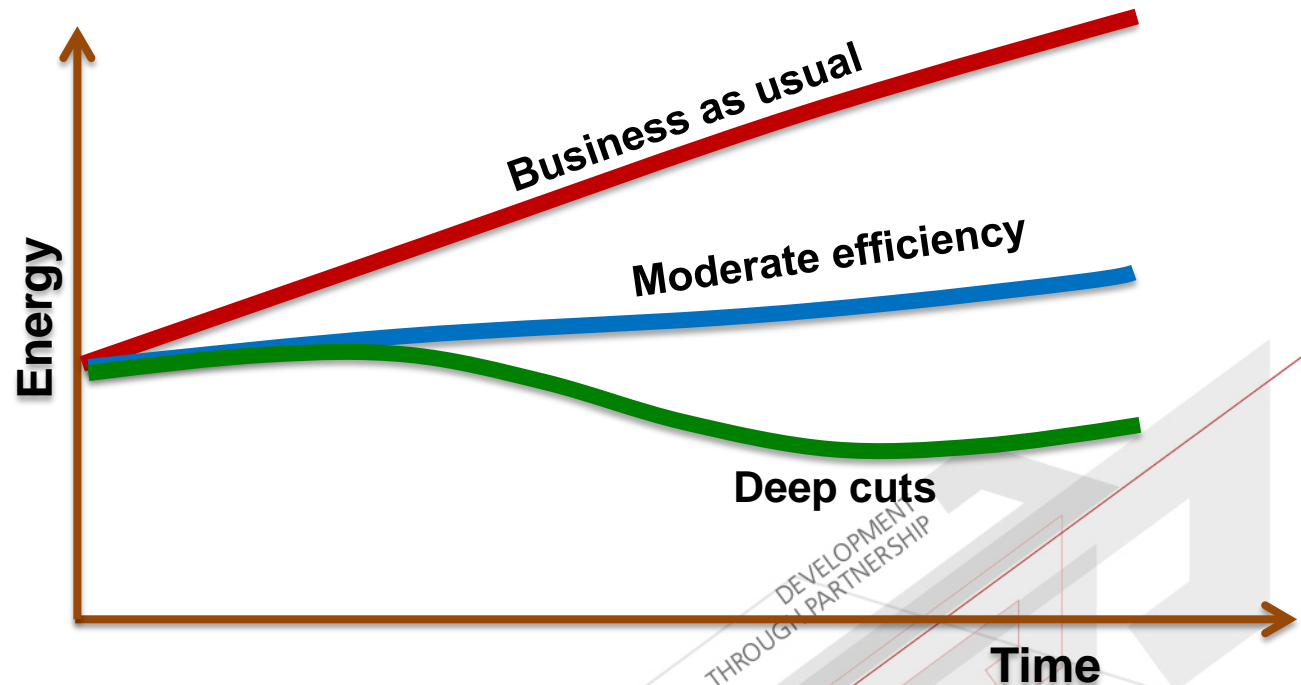

November 2014

New Build / Operational

		Public Sector	Private Sector
New Build	Mandatory	SANS 10400XA	SANS 10400XA
	Encouraged	GreenStar SA	GreenStar SA
Operation	Mandatory	SANS 1544 (EPC) T12 Lighting	
	Encouraged	GreenStar SA	SANS 1544 (EPC) GreenStar SA

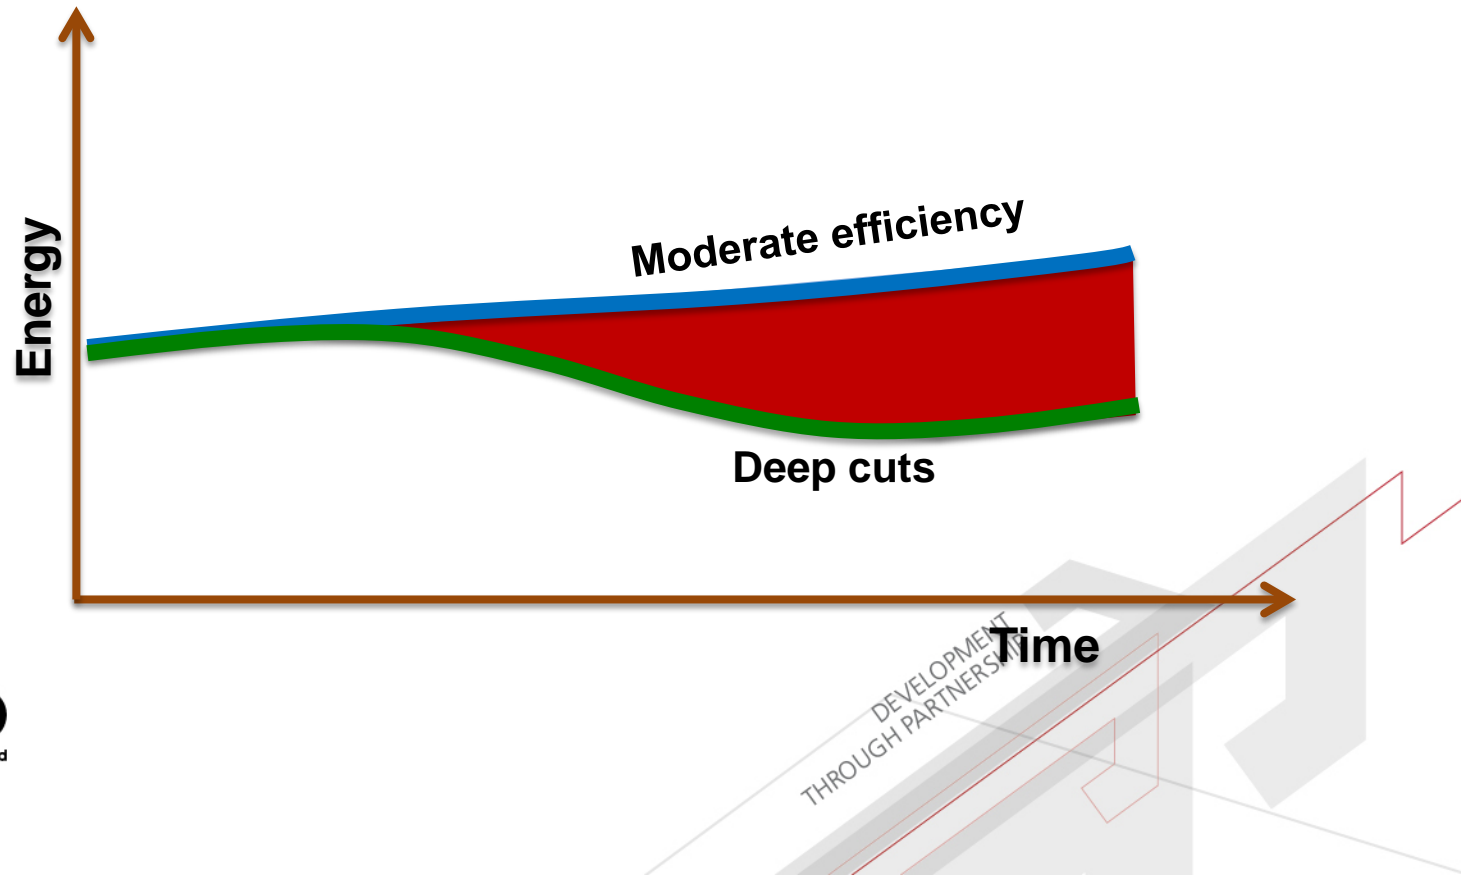

Deep Cuts

- “We should therefore strive for nothing less than a world in which building codes require the best possible performance level for their climate-zone, new buildings are at least near zero energy, deep retrofiting of existing buildings is common and where buildings are integrated with renewables.” (GBPN)

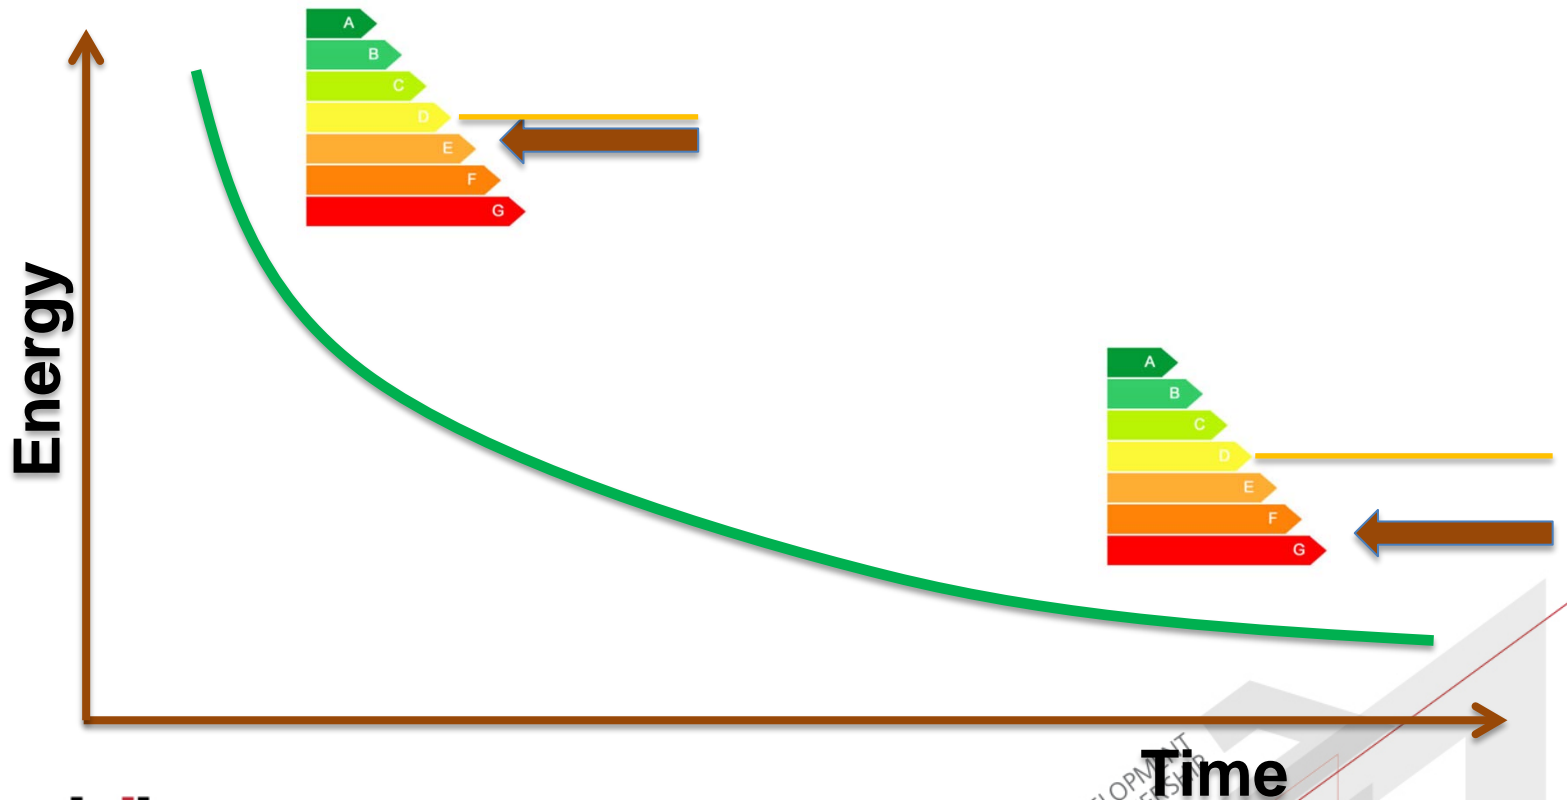

Lock-in

- “High lock-in risk points to the primary importance of ambitious energy performance levels in building codes for new construction and retrofits” (GBPN)

Energy Trajectory & SANS 10400XA

- What / where is the trajectory for SANS 10400XA?
