

# ECEL Short-Course A: Using Administrative Enforcement mechanisms to tackle “Green” non – compliances

12<sup>th</sup> November 2013:05<sup>th</sup> Environmental Compliance and Enforcement Lekgotla

## Course Overview:

The brown and green environmental subsectors have historically been characterised by the use of either administrative or criminal enforcement mechanisms. The commencement of the Inspectorate has seen the beginnings of breaking through this barrier –however, this initiative needs to be followed through and improved.

## Who should attend?

EMIs responsible for biodiversity/protected areas enforcement who wish to learn more about the potential application of administrative enforcement mechanisms to these types of non-compliances and the value that these mechanisms can add to their area of work.

**Course Presenters:** Werner Boing (Free State), Frances Craigie, Cashandra Fredericks (DEA)
