

ECEL Short-Course C: Use of GPS/GIS Technology: How is the Inspectorate positioned?

12th November 2013: 05 Environmental Compliance and Enforcement Lekgotla

Course Overview:

Although most EMIs have access to GPS/GIS technology through various mobile devices, only a few have used this type of information to optimise compliance and enforcement activities – this shortcourse will provide these officials to share some of the experiences.

Who should attend?

EMIs whose compliance and enforcement activities would be improved through the proper use of GIS/GPS technology, for example, in the identification of EIA Listing Notice 3, listing of specific activities in certain geographical areas.

Course Presenters: Deon Marais, Nicolene Fourie, Linette [] (DEA), Grant Walters (DEA), Robert Stegman (Eastern Cape DEDEA)
