

# DAY 3 - ECEL

## WORKHOP A

*Are we adequately capacitated to integrate the law and the science?*

*“The EMI Evolution: Unlocking*

### WORKSHOP OVERVIEW:

Effective application environmental law concepts generally requires knowledge of environmental sciences as matters concerning the environment is considered to be in a dynamic state of flux. As such, it is necessary for EMIs/delegates to use this knowledge in order to promote an environmental crime investigation. This workshop is an informative session that will reflect on how the practical use of the science has facilitated an improved investigation.

### OUTCOMES:

Understanding the gaps in knowledge and the programmes available to breach these gaps. EMIs will also relate on how they have capacitated themselves and how this has worked for them in the past.

### *Who should attend?*

EMIs/delegates who are currently involved with investigations which requires an understanding of the application of science and how the discipline ties into the empowering provisions of environmental law. EMIs/delegates who also has a personal interest in capacitating themselves in Environmental Law in general, will find value in attending this session.

### WORKSHOP FACILITATORS:

Prof Loretta Feris (UCT), Vanessa Maclou (KZNDAEA) and Werner Eiselen (DEA).

Topic	Facilitators	Time
<i>Introduction</i>	Vanessa Maclou	13h30 – 14h00
<i>How has the understanding of the science worked for me?</i>	Werner Eiselen	14h00 – 14h30
<i>What is out there?</i>	Prof. Loretta Feris	14h30 – 15h00
<b>TEA</b>		<b>15h00 – 15h15</b>
<i>Critical Reflections – Where am I lacking?</i>	Group Discussions	15h00 – 16h00
<i>Wrap up</i>	All facilitators	16h00 – 16h30
