CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

1 PURPOSE

This document provides the terms of reference for a consultant team to assist the Department by providing consultancy services to persons with special needs to allow them to comply with the submission of applications for Environmental Authorisation.

2 INTRODUCTION AND BACKGROUND

The EIA Pro Bono initiative seeks to proactively address the objectives of Regulation 47 (a), (b) and (c) of the EIA Regulations, 2014, which states that “The competent authority processing an application in terms of these Regulations must give reasonable assistance to people with: (a) illiteracy; (b) a disability; and (c) any other disadvantage, who cannot, but desire to, comply with these Regulations.”

Through the Medium Term Strategic Framework (MTSF), to address government’s broad national priorities, twelve key outcomes to be implemented by government were identified. These included, amongst other priorities Outcome 10: Protect and enhance our environmental assets and natural resources. The manner in which the environmental assets are to be protected is primarily through administering the Environmental Impact

Assessment process which requires the input of environmental impact assessment practitioners and environmental specialists. These specialists charge professional fees that may not be affordable to small and medium enterprises, communities, and new entrances into the market and meet the criteria for this programme. In these cases the Department intends to fund an institution to conduct the Environmental Impact Assessment on a pro bono basis on their behalf.

The Department has an existing special needs project which comes to an end in July 2018. The Chief Directorate IEMS wishes to continue with the similar project for the whole country again. The project also focusses on assisting unemployed graduates to gain work experience in the Environmental Management Sector. The appointed service provider will be required to employ unemployed graduates and they will learn how to conduct and compile EIA reports.

The consultant will be appointed for a period of 04 years and three months starting from May 2018 to July 2022.

3 PROBLEM ANALYSIS

The cost of EIAs (*to those who cannot afford the undertaking of such*) can act as a barrier to entry to the market and further contributes to unequal economic opportunities. In this regard possible small business ventures are often compromised due to *amongst other factors*, a lack of funds to comply with the NEMA EIA Regulations [*i.e. the appointment of a service provider to undertake a Basic Assessment (BA), and a Scoping & Environmental Impact Assessment process (S&EIA)*]. It is envisaged that, through this collaborative programme, the Department will make a contribution to meeting the full potential of the small and medium enterprises in South Africa.

The programme provides consultancy services through the employment of young unemployed environmental graduates, thereby providing employment opportunities and equipping these young graduates with valuable work experience while being mentored by experienced consultants.

4 STRATEGY ANALYSIS

Given the problem outlined above, the following strategy has been devised for the consultant team that is the subject of these terms of reference.

4.1 The use of the criteria to assist persons with special needs developed by DEA

The consultancy that will be appointed for this project must utilise the criteria to identify persons and communities who qualify for assistance to access consultancy service to conduct assessments, which was developed by DEA and is based on a variety of factors including income, access to funds, feasibility of the business venture, type of

project and projected cost. Through the criteria, applications will be ranked in order to determine qualifying individuals and person who will be assisted without charge.

4.2 Funding of the service

The special needs project will be fully funded over a period of four years and three months by this Department to implement the project.

5 OVERALL OBJECTIVE

The overall objective of the consultancy is framed as:

The roll out of EIA special needs and skills development programme is achieved in the most efficient and effective manner. These included, amongst other priorities, meeting the objective of assisting persons and persons with special needs to access EIAs.

6 IMMEDIATE PROJECT OBJECTIVE

In order to contribute to the overall project objective, the consultancy has the following immediate objectives:

6.1 Immediate Objective A - Inception workshop and detailed work plan

6.1.1 Objective – Inception workshop and detailed work plan

An inception workshop is to be held where aspects of the project will be discussed and agreed between the consultant team and the Department.

6.1.2 Outputs – Inception workshop and detailed work plan

An inception workshop will be held. Following this workshop a comprehensive work plan is to be drawn up by the consultant team which will confirm the identified tasks, staff allocations staff, timeframes and coordination. The work plan is to be approved by the Project Director before work commences.

The consultancy must identify at these meetings what actions have been taken to bring the project to the attention of possible beneficiaries. The consultants must convene the project management committee which will be chaired by the department. The venues of the department or the consultancy team must be used and no requirements for catering will be required. In addition to the Project Management Committee the project team will be required to submit quarterly progress reports.

6.2.2 Outputs – Project Management Committee meeting

6.4 Immediate Objective D – Providing employment opportunity for unemployed graduates

6.4.1 Objective – Employment and training of unemployed graduates to conduct environmental impacts assessments and compile EIA reports

The consultant team is to provide an employment opportunity for a total of 6 unemployed graduates in two batches where they obtain 2 years each of well-structured mentoring and “real-life” experience over the contract period. The consultant team must ensure that, when the requirement to register as environmental assessment practitioner, as contained in Regulation 14 of the Section 24H Registration Authority Regulations, 2016, comes into effect, graduates register as candidate EAPs [refer to Regulation 15(2) of said Regulations]. The training provided must be structured and a training programme must be prepared and submitted as part of the technical proposal for this tender. The successful consultant team will need to update and implement the training programme through the period of the project.

The time period of the project is four years and three months to allow for the hiring of the first set of 3 graduates within the first three months of the initiation of the project. The consultant team is to ensure that the graduates are hired within this time and that services can be providing as from the fourth month of the inception of the project. Half way through the project the next batch of 3 graduates are to be employed to allow them similarly to have a full 24 months of actual training.

6.4.2 Outputs – Unemployed graduates employed, trained and exposed to work environment in the environmental management sector

A training programme which identifies how 6 graduates will be mentored and trained throughout the project is to be prepared. The training programme must identify the timeframes for their appointment, the training that they will receive, include the staff members and their level of expertise that will be assigned to their mentoring, the time set aside for this mentoring and the mentoring structure within the consultancy including how the graduates will be

kept occupied should there be a lull in the work required through the special needs programme. As an output of the training, registration as a candidate professional.
